The Santa Maria-Bonita School District is located on the beautiful Central Coast and is nestled in the Santa Maria Valley, one of the most productive agricultural areas in the State of California. Although many of our families have children who were born here in the United States, over 75% have a home language other than English. Over 93% of our students are Hispanic. Approximately 60% of our parent population does not have a high school degree, and 86.5% of our students qualify for free or reduced priced lunch. We have approximately 8% of our students identified as Gifted and Talented, 13% of our students are identified as Migrant, and 7% of our students are in Special Education. Our families are hardworking and want the very best education for their children. They want not only to see their children survive in our community and nation, but also thrive in all of their endeavors. They have a high respect for our teachers and the education we provide. Our families come from a rich culture with many life experiences. Their learning and embracing a new culture and a new language while maintaining their native language and culture are the support threads we use to weave a strong educational system which helps influence our student's potential and strengthen our entire district..

*Local Control and Accountability Plan and Annual Update Template*

*The Local Control and Accountability Plan (LCAP) and Annual Update Template shall be used to provide details regarding local educational agencies? (LEAs) actions and expenditures to support pupil outcomes and overall performance pursuant to Education Code sections 52060, 52066, 47605, 47605.5, and 47606.5. The LCAP and Annual Update Template must be completed by all LEAs each year.*

*For school districts, pursuant to Education Code section 52060, the LCAP must describe, for the school district and each school within the district, goals and specific actions to achieve those goals for all pupils and each subgroup of pupils identified in Education Code section 52052, including pupils with disabilities, for each of the state priorities and any locally identified priorities.*

*For county offices of education, pursuant to Education Code section 52066, the LCAP must describe, for each county office of education-operated school and program, goals and specific actions to achieve those goals for all pupils and each subgroup of pupils identified in Education Code section 52052, including pupils with disabilities, who are funded through the county office of education Local Control Funding Formula as identified in Education Code section 2574 (pupils attending juvenile court schools, on probation or parole, or mandatorily expelled) for each of the state priorities and any locally identified priorities. School districts and county offices of education may additionally coordinate and describe in their LCAPs services provided to pupils funded by a school district but attending county-operated schools and programs, including special education programs.*

*Charter schools, pursuant to Education Code sections 47605, 47605.5, and 47606.5, must describe goals and specific actions to achieve those goals for all pupils and each subgroup of pupils identified in Education Code section 52052, including pupils with disabilities, for each of the state priorities as applicable and any locally identified priorities. For charter schools, the inclusion and description of goals for state priorities in the LCAP may be modified to meet the grade levels served and the nature of the programs provided, including modifications to reflect only the statutory requirements explicitly applicable to charter schools in the Education Code.*

*The LCAP is intended to be a comprehensive planning tool. Accordingly, in developing goals, specific actions, and expenditures, LEAs should carefully consider how to reflect the services and related expenses for their basic instructional program in relationship to the state priorities. LEAs may reference and describe actions and expenditures in other plans and funded by a variety of other fund sources when detailing goals, actions, and expenditures related to the state and local priorities. LCAPs must be consistent with school plans submitted pursuant to Education Code section 64001. The information contained in the LCAP, or annual update, may be supplemented by information contained in other plans (including the LEA plan pursuant to Section 1112 of Subpart 1 of Part A of Title 1 of Public Law 107-110) that are incorporated or referenced as relevant in this document.*

*For each section of the template, LEAs shall comply with instructions and should use the guiding questions as prompts (but not limits) for completing the information as required by statute. Guiding questions do not require separate narrative responses. However, the narrative response and goals and actions should demonstrate each guiding question was considered during the development of the plan. Data referenced in the LCAP must be consistent with the school accountability report card where appropriate. LEAs may resize pages or attach additional pages as necessary to facilitate completion of the LCAP.*

### State Priorities

The state priorities listed in Education Code sections 52060 and 52066 can be categorized as specified below for planning purposes, however, school districts and county offices of education must address each of the state priorities in their LCAP. Charter schools must address the priorities in Education Code section 52060(d) that apply to the grade levels served, or the nature of the program operated, by the charter school.

#### A. Conditions of Learning:

*Basic:* degree to which teachers are appropriately assigned pursuant to Education Code section 44258.9, and fully credentialed in the subject areas and for the pupils they are teaching; pupils have access to standards-aligned instructional materials pursuant to Education Code section 60119; and school facilities are maintained in good repair pursuant to Education Code section 17002(d). (Priority 1)

*Implementation of State Standards:* implementation of academic content and performance standards and English language development standards adopted by the state board for all pupils, including English learners. (Priority 2)

*Course access:* pupil enrollment in a broad course of study that includes all of the subject areas described in Education Code section 51210 and subdivisions (a) to (i), inclusive, of Section 51220, as applicable. (Priority 7)

*Expelled pupils (for county offices of education only):* coordination of instruction of expelled pupils pursuant to Education Code section 48926. (Priority 9)

*Foster youth (for county offices of education only):* coordination of services, including working with the county child welfare agency to share information, responding to the needs of the juvenile court system, and ensuring transfer of health and education records. (Priority 10)

#### B. Pupil Outcomes:

*Pupil achievement:* performance on standardized tests, score on Academic Performance Index, share of pupils that are college and career ready, share of English learners that become English proficient, English learner reclassification rate, share of pupils that pass Advanced Placement exams with 3 or higher, share of pupils determined prepared for college by the Early Assessment Program. (Priority 4)

*Other pupil outcomes:* pupil outcomes in the subject areas described in Education Code section 51210 and subdivisions (a) to (i), inclusive, of Education Code section 51220, as applicable. (Priority 8)

#### C. Engagement:

*Parental involvement:* efforts to seek parent input in decision making at the district and each schoolsite, promotion of parent participation in programs for unduplicated pupils and special need subgroups. (Priority 3)

*Pupil engagement:* school attendance rates, chronic absenteeism rates, middle school dropout rates, high school dropout rates, high school graduations rates. (Priority 5)

*School climate:* pupil suspension rates, pupil expulsion rates, other local measures including surveys of pupils, parents and teachers on the sense of safety and school connectedness. (Priority 6)

Section 1: Stakeholder Engagement

*Meaningful engagement of parents, pupils, and other stakeholders, including those representing the subgroups identified in Education Code section 52052, is critical to the LCAP and budget process. Education Code sections 52060(g), 52062 and 52063 specify the minimum requirements for school districts; Education Code sections 52066(g), 52068 and 52069 specify the minimum requirements for county offices of education, and Education Code section 47606.5 specifies the minimum requirements for charter schools. In addition, Education Code section 48985 specifies the requirements for translation of documents.*

Instructions: Describe the process used to consult with parents, pupils, school personnel, local bargaining units as applicable, and the community and how this consultation contributed to development of the LCAP or annual update. Note that the LEA's goals, actions, services and expenditures related to the state priority of parental involvement are to be described separately in Section 2. In the annual update boxes, describe the stakeholder involvement process for the review, and describe its impact on, the development of the annual update to LCAP goals, actions, services, and expenditures.

Guiding Questions:

- 1) How have applicable stakeholders (e.g., parents and pupils, including parents of unduplicated pupils and unduplicated pupils identified in Education Code section 42238.01; community members; local bargaining units; LEA personnel; county child welfare agencies; county office of education foster youth services programs, court-appointed special advocates, and other foster youth stakeholders; community organizations representing English learners; and others as appropriate) been engaged and involved in developing, reviewing, and supporting implementation of the LCAP?
- 2) How have stakeholders been included in the LEA's process in a timely manner to allow for engagement in the development of the LCAP?
- 3) What information (e.g., quantitative and qualitative data/metrics) was made available to stakeholders related to the state priorities and used by the LEA to inform the LCAP goal setting process? How was the information made available?
- 4) What changes, if any, were made in the LCAP prior to adoption as a result of written comments or other feedback received by the LEA through any of the LEA's engagement processes?
- 5) What specific actions were taken to meet statutory requirements for stakeholder engagement pursuant to Education Code sections 52062, 52068, and 47606.5, including engagement with representatives of parents and guardians of pupils identified in Education Code section 42238.01?
- 6) What specific actions were taken to consult with pupils to meet the requirements 5 CCR 15495(a)?
- 7) How has stakeholder involvement been continued and supported? How has the involvement of these stakeholders supported improved outcomes for pupils, including unduplicated pupils, related to the state priorities?

Involvement Process	Impact on LCAP
<p>The Santa Maria-Bonita School District (SMBSD) once again performed an extensive involvement process in year three of LCAP. SMBSD is committed to demonstrating a comprehensive plan in the area of community and staff engagement.</p> <p>Multiple public hearing dates were held to provide staff, community, and interested stake holders an opportunity to address the Board and express their interests and recommendations. There were many public comments at each of the designated School Board meetings with public hearings concerning LCAP. The LCAP public hearings were posted and publicized in accordance with the Brown Act.</p> <p>Evidence of the public hearings can be found on the agendas of the following Board meetings:</p> <p>January 20, 2016 - Board Discussion Item on Plan for Stakeholder Engagement</p> <p>February 10, 2016 - Public Hearing Number 1 and Discussion Item on 2015-16 LCAP Update</p> <p>March 9, 2016 - Public Hearing Number 2 and Discussion Item on Needs Analysis/Goal Identification</p> <p>April 13, 2016 - Public Hearing Number 3 and Discussion Item on Brainstorming of Actions and Services</p> <p>May 11, 2016 - Public Hearing Number 4 and Discussion Item on Prioritizing Actions and Services</p> <p>June 1, 2016 - Public Hearing Number 5 and Draft of LCAP/Budget</p> <p>June 8, 2016 - Public Hearing Number 6 and Approval of LCAP and Budget and LCAP</p> <p>Individual and group meetings have been held with bargaining unit leadership to describe both the stakeholder involvement process and to hear their interests and questions as well.</p> <p>Site managers were given the opportunity to work together in groups to identify and rank potential actions and services. Junior highs worked together and elementary schools were grouped into their feeders.</p> <p>The District updated its LCAP web page with the PowerPoint presentations from the meetings above so members of the public could monitor the discussion even if they could not attend. An email account was set up and made available on this page specifically to allow stakeholders to email their input at any time throughout the process. Cabinet worked together to identify local community leaders, resulting in a list of multiple advocates for young people who</p>	<p>During the course of conducting the public hearings, stakeholders were able to engage directly with the school Board regarding their interests for the District's focus in the coming year. Teachers, managers, parents and students all took advantage of this forum to share their interests for the arts, physical education, services for students with special needs, dual immersion, GATE and more. Groups advocated for more support directly in the classroom, and for alternative programs for students.</p> <p>Actions and Services that were created or modified based on these conversations included, additional funding for the Dual Language Immersion Pilot, Increased support for GATE and additional resources for district state preschool programs, .</p> <p>Because actions and services are to be focused on targeted students, a great deal of input was gathered from site managers to brainstorm and rank items to be brought to the board for consideration. The revised goals were also shared with this group so that consideration could be given as sites considered developing their single school plans with these new goals in mind. Discussions from these meetings were used to inform the listing of actions and services brought to the Board for consideration.</p> <p>Specific actions and services that were created or modified based on these discussions included, an additional 8th Grade Class placed at a County School, and Marriage Family Therapist for Junior Highs, an alternative or opportunity setting for students at Junior High, additional support for two intervention teachers at elementary each site, 2 additional Teacher Tutors at each site, instructional aid support for all First Grade classrooms, additional parent/family literacy classes, additional resources for site driven interventions and student support, additional support for student safety through student supervisors.</p> <p>Bargaining units were also provided opportunities to discuss each phase of the LCAP development process in a subgroup setting. During these meetings, the Board presentations were reviewed and specific content highlighting items that impacted unit members were discussed as well. These meetings provided an opportunity to determine where common interests for services were aligned between the LCAP and the bargaining unit leaders and served to limit surprises during the LCAP process. Bargaining units expressed support for additional translation services, instructional aid support, custodial services and the expansion of services across as many grade levels as possible for the benefit of all students.</p> <p>Survey results from students and adults were compared to prior surveys to determine if the level of support and interests on the</p>

<p>received a direct email with information about the nature and timing of the public hearings, as well as the LCAP@smbd.net email address.</p> <p>The District completed multiple surveys for students, classified, certificated, management, parents and community members to get a sense of community sentiment on various areas of the District's services. Of the responses, 3,400 indicated they were parents, 423 indicated they were community members, 350 indicated they were teachers, 155 indicated they were classified staff and 41 indicated they were administrators. Separate surveys were prepared for elementary students and junior high students to gather information from these important groups as well.</p> <p>School Site plans have been updated to reflect LCAP Goals and Priorities. Site plans have been reviewed and approved by School Site Councils and by the District Advisory Committee. LCAP input was also generated by the Migrant Parent Advisory Committee, DAC and DELAC committee meetings.</p>	<p>items described on the survey continued to determine if stakeholders had developed new interests since the prior survey. Results were mostly consistent between years with a focus on positive feelings around school climate, support for the arts and activities that build a positive school culture. Noticeably less support was shown for extended day programs, Saturday school programs and intercession. However, the District has supported increasing offerings for these additional services because the current offerings are generally full, Requests for additional offerings, additional instructional time and related activities serve students well. The actual participation levels for these additional offerings will be used to determine if there is actually more support for them than what the survey results indicated. Historically, summer school offerings have been attended by hundreds of students.</p> <p>Part of the May Revision included changing the funding gap, which provided additional funds for the supplemental and concentration grants. Comments and support from various stakeholders for actions and services were then revisited in order to identify and prioritize additional items for the list. Revisiting input from the stakeholder input increased service level funding for teacher tutors, GATE, Dual Language Immersion, School Climate Training and Special Assignment Teachers to provide support in the implementation of ELA/ELD and Math Standards with them providing more grade level focus on particular content areas.</p> <p>The LCAP Goals and draft listing of proposed actions and services were shared and supported at the DAC and DELAC committee meetings on April 27, 2016. This information will also be presented for consideration at the Migrant Parent Committee meeting on May 26, 2016 for consideration and received approval and support.</p>
<p>Annual Update:</p> <p>The Santa Maria-Bonita School District has facilitated many venues for communication regarding the LCAP, and each of the actions and services that have been implemented are to increase or improve services to targeted students. This includes the Joint Administrators Meeting (JAM), the Elementary School Principals Meeting (K6), the Junior High Principals Meeting (7/8), the Certificated and Classified Labor Management Council Meetings (LMC and CLMC), and School Site Council Meetings, as well as holding the multiple public hearings described earlier in this document and the Public Hearing and Discussion Item directly connected to the Annual Update held on February 10, 2016.</p> <p>JAM Meeting Schedule: Provided a venue for every manager to discuss implications and impact of each action and service included in the plan on their sites or within their department.</p> <p>July 30-31, 2015 – Administrative Retreat</p> <p>August 18, 2015</p> <p>September 15, 2015</p> <p>October 20, 2015</p> <p>November 17, 2015</p> <p>December 15 2015</p> <p>January 14-15, 2016, 8:30-3:30 – Administrative Retreat</p> <p>February 16, 2016</p> <p>March 15, 2016</p> <p>April 19, 2016</p> <p>May 17, 2016</p> <p>June 14, 2016 (tentative)</p> <p>K-6 Meetings: Provide a venue for District office managers and elementary site principals to discuss the impact and implications of actions and services specific to the elementary sites and students.</p> <p>September 8, 2015</p> <p>October 13, 2015</p> <p>November 10, 2015</p> <p>February 9, 2016</p> <p>March – 8, 2016</p> <p>April 12, 2016</p> <p>May 10, 2016</p> <p>7/8 Meetings: Provide a venue for District office managers and junior</p>	<p>Annual Update:</p> <p>The stakeholder engagement process uncovered many areas of conversation, discussion, debate, and problem solving opportunities. Time is precious and the limited minutes in the school day was a source of discussion related to the Fine Arts being added through LCAP. How many disciplines can be offered during the elementary school year while still providing time for regular instruction? The timing of pullout programs for the arts pulling students away from ELA, ELD and Math received significant attention in venues with teachers and instructional leaders alike. The LCAP continues to contain investments in professional development. Discussions with stakeholders also refine the most effective, agreeable approaches to bringing the best training possible to faculty and staff with LCAP resources.</p> <p>The conversation with elementary principals began right away during the September meeting and continued through many of the public hearings on the 2016-17 LCAP. Grade level teachers advocated for keeping students in class, while band teachers advocated for keeping band during the instructional day. Many options were provided by band teachers and evaluated by principals. Principals also developed options. Work in this area is still continuing. The balancing act between providing students with access to the arts with meeting the core academic needs of all students persists. While writing this plan, the decision has been to maximize core instruction during the school day and offer one session of band during the day and one after the school day.</p> <p>Another significant conversation that channeled through classrooms to principals and into the LCAP update and LCAP also has to do with the fine arts. Previously, a significant investment through LCAP was focused on a single provider group which made scheduling difficult between artists and school sites. It was determined that the investment needed to be generalized to allow sites to access multiple providers to create more options and flexibility on how students are provided access to the arts.</p> <p>Survey results were compared to prior surveys to determine if the level of support and interests on the items described on the survey continued to determine if stakeholders had developed new interests since the prior survey. Results were mostly consistent between years with a focus on positive feelings around school climate, support for the arts and activities that build a positive school culture. Noticeably less support was shown for extended day programs, Saturday school programs and intercession. However, the District has supported increasing offerings for these additional services because the current offerings are generally full, requests for additional offerings come from other sources and the additional instructional time and related activities serve students well. The actual participation levels for these additional offerings will be used to determine if there is actually more support for them than what the survey results indicated.</p> <p>It was also learned that there are secondary needs that sometimes go unanticipated when programs or personnel are requested through</p>

Parents are also an important part of the decision making process in Santa Maria-Bonita School District. Our students' parents participate in decision making at the school and district level. School Site Council and English Learner Advisory Meetings were held six times per year and scheduled at each site by school administrators to gather input from parents of English learners, reclassified students, homeless, foster youth, low income and other groups about the student and school needs and recommendations for improvement. 21% of the Supplemental and Concentration funds are managed at this level.

The District completed multiple surveys for students, classified, certificated, management, parents and community members to get a sense of community sentiment on various areas of the District's services. Of the responses, 3,400 indicated they were parents, 423 indicated they were community members, 350 indicated they were teachers, 155 indicated they were classified staff and 41 indicated they were administrators. Separate surveys were prepared for elementary students and junior high students to gather information from these important groups as well.

Our district hosts our own migrant regional office and migrant parents also play an important role in the decision making process. About 25% of our students are eligible for migrant education. The Migrant Parent Advisory Committee members met six times during 2015-16 and provided input about the students' needs and recommendations for the LCAP. Six general meetings for all migrant parents were held to gather input about the students' needs and areas for improvement.

The District Advisory Committee (DAC) and District English Learner Advisory Committee (DELAC) members met six times and were actively involved in the LCAP by analyzing student data, completing the LCAP survey, evaluating the plan for the previous year, participating in school board meetings, and providing input and recommendations for school-wide and district-wide activities for the 2016-17 school year.

the LCAP process. Updates were required to address some of these needs and an item has been added into the 2016-17 LCAP to address some of these unforeseen needs. Examples include the need for supplies and equipment, training and mileage.

## Section 2: Goals, Actions, Expenditures, and Progress Indicators

### Instructions:

All LEAs must complete the LCAP and Annual Update Template each year. The LCAP is a three-year plan for the upcoming school year and the two years that follow. In this way, the program and goals contained in the LCAP align with the term of a school district and county office of education budget and multiyear budget projections. The Annual Update section of the template reviews progress made for each stated goal in the school year that is coming to a close, assesses the effectiveness of actions and services provided, and describes the changes made in the LCAP for the next three years that are based on this review and assessment.

Charter schools may adjust the table below to align with the term of the charter school's budget that is submitted to the school's authorizer pursuant to Education Code section 47604.33.

For school districts, Education Code sections 52060 and 52061, for county offices of education, Education Code sections 52066 and 52067, and for charter schools, Education Code section 47606.5 require(s) the LCAP to include a description of the annual goals, for all pupils and each subgroup of pupils, to be achieved for each state priority as defined in 5 CCR 15495(i) and any local priorities; a description of the specific actions an LEA will take to meet the identified goals; a description of the expenditures required to implement the specific actions; and an annual update to include a review of progress towards the goals and describe any changes to the goals.

To facilitate alignment between the LCAP and school plans, the LCAP shall identify and incorporate school-specific goals related to the state and local priorities from the school plans submitted pursuant to Education Code section 64001. Furthermore, the LCAP should be shared with, and input requested from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, pupil advisory groups, etc.) to facilitate alignment between school-site and district-level goals and actions. An LEA may incorporate or reference actions described in other plans that are being undertaken to meet the goal.

Using the following instructions and guiding questions, complete a goal table (see below) for each of the LEA's goals. Duplicate and expand the fields as necessary.

#### Goal: Describe the goal:

When completing the goal tables, include goals for all pupils and specific goals for schoolsites and specific subgroups, including pupils with disabilities, both at the LEA level and, where applicable, at the schoolsite level. The LEA may identify which schoolsites and subgroups have the same goals, and group and describe those goals together. The LEA may also indicate those goals that are not applicable to a specific subgroup or schoolsite.

**Related State and/or Local Priorities:** Identify the state and/or local priorities addressed by the goal by placing a check mark next to the applicable priority or priorities. The LCAP must include goals that address each of the state priorities, as defined in 5 CCR 15495(i), and any additional local priorities; however, one goal may address multiple priorities.

**Identified Need:** Describe the need(s) identified by the LEA that this goal addresses, including a description of the supporting data used to identify the need(s).

**Schools:** Identify the schoolsites to which the goal applies. LEAs may indicate "all" for all schools, specify an individual school or a subset of schools, or specify grade spans (e.g., all high schools or grades K-5).

**Applicable Pupil Subgroups:** Identify the pupil subgroups as defined in Education Code section 52052 to which the goal applies, or indicate "all" for all pupils.

**Expected Annual Measurable Outcomes:** For each LCAP year, identify and describe specific expected measurable outcomes for all pupils using, at minimum, the applicable required metrics for the related state priorities. Where applicable, include descriptions of specific expected measurable outcomes for schoolsites and specific subgroups, including pupils with disabilities, both at the LEA level and at the schoolsite level.

The metrics used to describe the expected measurable outcomes may be quantitative or qualitative, although the goal tables must address all required metrics for every state priority in each LCAP year. The required metrics are the specified measures and objectives for each state priority as set forth in Education Code sections 52060(d) and 52066(d). For the pupil engagement priority metrics, LEAs must calculate the rates specified in Education Code sections 52060(d)(5)(B), (C), (D) and (E) as described in the Local Control Accountability Plan and Annual Update Template Appendix, sections (a) through (d).

**Action/Services:** For each LCAP year, identify all annual actions to be performed and services provided to meet the described goal. Actions may describe a group of services that are implemented to achieve the identified goal.

**Scope of Service:** Describe the scope of each action/service by identifying the schoolsites covered. LEAs may indicate "all" for all schools, specify an individual school or a subset of schools, or specify grade spans (e.g., all high schools or grades K-5). If supplemental and concentration funds are used to support the action/service, the LEA must identify if the scope of service is districtwide, schoolwide, countywide, or charterwide.

**Pupils to be served within identified scope of service:** For each action/service, identify the pupils to be served within the identified scope of service. If the action to be performed or the service to be provided is for all pupils, place a check mark next to "ALL."

For each action and/or service to be provided above what is being provided for all pupils, place a check mark next to the applicable unduplicated pupil subgroup(s) and/or other pupil subgroup(s) that will benefit from the additional action, and/or will receive the additional service. Identify, as applicable, additional actions and services for unduplicated pupil subgroup(s) as defined in Education Code section 42238.01, pupils redesignated fluent English proficient, and/or pupils subgroup(s) as defined in Education Code section 52052.

**Budgeted Expenditures:** For each action/service, list and describe budgeted expenditures for each school year to implement these actions, including where those expenditures can be found in the LEA's budget. The LEA must reference all fund sources for each proposed expenditure. Expenditures must be classified using the California School Accounting Manual as required by Education Code sections 52061, 52067, and 47606.5.

#### Guiding Questions:

- 1) What are the LEA's goal(s) to address state priorities related to "Conditions of Learning"?
- 2) What are the LEA's goal(s) to address state priorities related to "Pupil Outcomes"?
- 3) What are the LEA's goal(s) to address state priorities related to parent and pupil "Engagement" (e.g., parent involvement, pupil engagement, and school climate)?
- 4) What are the LEA's goal(s) to address any locally-identified priorities?
- 5) How have the unique needs of individual schoolsites been evaluated to inform the development of meaningful district and/or individual schoolsite goals (e.g., input from site level advisory groups, staff, parents, community, pupils; review of school level plans; in-depth

school level data analysis, etc.)?

- 6) What are the unique goals for unduplicated pupils as defined in Education Code sections 42238.01 and subgroups as defined in section 52052 that are different from the LEA's goals for all pupils?
- 7) What are the specific expected measurable outcomes associated with each of the goals annually and over the term of the LCAP?
- 8) What information (e.g., quantitative and qualitative data/metrics) was considered/reviewed to develop goals to address each state or local priority?
- 9) What information was considered/reviewed for individual schoolsites?
- 10) What information was considered/reviewed for subgroups identified in Education Code section 52052?
- 11) What actions/services will be provided to all pupils, to subgroups of pupils identified pursuant to Education Code section 52052, to specific schoolsites, to English learners, to low-income pupils, and/or to foster youth to achieve goals identified in the LCAP?
- 12) How do these actions/services link to identified goals and expected measurable outcomes?
- 13) What expenditures support changes to actions/services as a result of the goal identified? Where can these expenditures be found in the LEA's budget?

<b>Identified Need:</b>	1) In order to prepare all students for college and career readiness, students will need to achieve at higher levels of performance as shown by the 2015 baseline results for the CAASPP. 2) Williams Act: The District will assure that all students have access to current textbooks and quality materials compliant with state standards to use in the classroom and to take home to complete assignments. 3) The District will maintain its standard to employ teachers with the correct credentials and that they are appropriately assigned. 4) Re-evaluate on a yearly basis

LCAP Year 1: 2016-17

<b>Expected Annual Measurable Outcomes:</b>	We will know that our students are succeeding in this area when we see: Students have increased access to State aligned instructional materials, including ELA, ELD and Math as measured by the Resolution of Sufficiency, which indicates 100% of students have access to standards aligned materials. All students and subgroups make an annual 5% improvement in the English/Language Arts and mathematics as evidenced by the following benchmarks: By 2017, Grades K-2 students will decrease the percentage of all students in the "far below basic" and "below basic" areas by 5% and increase the percentage of all student in the "basic" and "proficient" areas by 5% on the District Assessments for ELA and mathematics. By 2017, Grades 3-8 students will decrease the percentage of all students in the "does not meet" by 5% and increase the percentage of all student in the "nearly met" and "met" areas by 5% on the Smarter Balanced ELA and mathematics state assessments. By 2017, meet with administrators/teachers to select and administer a baseline 2nd grade diagnostic assessment in ELA and mathematics. By 2017, all students in grades 5 and 7 will improve on the Healthy Fitness Zone at least 5% annually on State Physical Fitness Healthy Fitness Test. Professional Development Participation by staff (Certificated and Classified) in each of the following areas but not limited to : ELA, ELD, Math, Science, Social Studies, Special Education, Technology, Music, Physical Education and other areas to support students and school sites. Revisit Phil Daro's 5 X 8 card on what administrators should observe during math instruction. Train administrators on what "key shifts" to observe during English Language Arts/English Language Development.

Identified Need:	The District has a need to increase school community involvement and create a culture of respect and caring that supports positive relationships among all stakeholders. LCAP Parent Survey will contain questions dealing with respect and caring to refine guiding future decisions. All sites will have open house, parent conference, parent meetings, and SSC meetings among other parent/staff /student/community meetings. Re-evaluate on a yearly basis.		
Goal Applies to:	Schools: <input checked="" type="checkbox"/> All Applicable Pupil Subgroups: <input checked="" type="checkbox"/> All		
LCAP Year 1: 2016-17			
Expected Annual Measurable Outcomes:	We will know these are the right services and actions when: All parents are able to participate in parent meetings due to appropriate Interpretation services. Through a variety of means of parent outreach electronic means and flyers, all parents receive notification of meetings. All parents and guardians have their phone numbers entered into the Connect-Ed system with the appropriate home language to enable accurate notification of parent meetings, conferences, and other school activities. We have increased parental participation for Unduplicated Pupils. On Biannual Healthy Kids Survey, all 20 SMBSD schools will score above state averages on School Connectedness Scale. With consultation of site SSC, all 20 SMBSD schools will complete a Comprehensive School Safety Plan, which will address school climate as a component. Community Members, parents, students, teachers, classified, and administration have been given the opportunity to participate in the annual LCAP Survey, and at least 4500 responses have been received. All parents have received the Annual Notification of Rights and Responsibilities and sign off on it.

We will know these are the right services and actions when:

- All parents are able to participate in parent meetings due to appropriate Interpretation services.
- Through a variety of means of parent outreach electronic means and flyers, all parents receive notification of meetings.
- All parents and guardians have their phone numbers entered into the Connect-Ed system with the appropriate home language to enable accurate notification of parent meetings, conferences, and other school activities.

Expected Annual Measurable Outcomes:

- We have increased parental participation for Unduplicated Pupils.
- On Biannual Healthy Kids Survey, all 20 SMBSD schools will score above state averages on School Connectedness Scale.
- With consultation of site SSC, all 20 SMBSD schools will complete a Comprehensive School Safety Plan, which will address school climate as a component.
- Community Members, parents, students, teachers, classified, and administration have been given the opportunity to participate in the annual LCAP Survey, and at least 4500 responses have been received.
- All parents have received the Annual Notification of Rights and Responsibilities and sign off on it.

## Annual Update

Annual Update Instructions: For each goal in the prior year LCAP, review the progress toward the expected annual outcome(s) based on, at a minimum, the required metrics pursuant to Education Code sections 52060 and 52066. The review must include an assessment of the effectiveness of the specific actions. Describe any changes to the actions or goals the LEA will take as a result of the review and assessment. In addition, review the applicability of each goal in the LCAP.

### Guiding Questions:

- 1) How have the actions/services addressed the needs of all pupils and did the provisions of those services result in the desired outcomes?
- 2) How have the actions/services addressed the needs of all subgroups of pupils identified pursuant to Education Code section 52052, including, but not limited to, English learners, low-income pupils, and foster youth; and did the provision of those actions/services result in the desired outcomes?
- 3) How have the actions/services addressed the identified needs and goals of specific schoolsites and were these actions/services effective in achieving the desired outcomes?
- 4) What information (e.g., quantitative and qualitative data/metrics) was examined to review progress toward goals in the annual update?
- 5) What progress has been achieved toward the goal and expected measurable outcome(s)? How effective were the actions and services in making progress toward the goal? What changes to goals, actions, services, and expenditures are being made in the LCAP as a result of the review of progress and assessment of the effectiveness of the actions and services?
- 6) What differences are there between budgeted expenditures and estimated actual annual expenditures? What were the reasons for any differences?

Expected Annual Measurable Outcomes:	The percentage or number of teachers/ administrators trained in the implementation of Common Core State Standards in ELA, Literacy. Pupil performance on district wide implementation of formative and/or interim assessments.	Actual Annual Measurable Outcomes:	The amount of training for SMBSD teachers and aides has continued to rise throughout the past 3 years. The school year began with a full training on building student engagement and academic vocabulary. We concluded the overview of Close Reading, but conclude that our district still needs more training on the ELA Standards.

What changes in actions, services, and expenditures will be made as a result of reviewing past progress and/or changes to goals?	<p>Although many hours have been invested in learning about ELA/Literacy standards, more learning opportunities for teachers to actually focus on the standards needs to take place in order for full implementation to occur in the classroom. There is a need for a systematic approach to deliver ELA Standards. Administrators and teachers want and still need more training. There is a need for additional TOSAs to help deliver and support teachers in their learning. With the rigors of our latest Standards there continues to be a need to hire more LATs, Teacher tutors, instructional aides and more support staff to work individually and in smaller group settings with students. There also continues to be a need for more opportunities to learn and collaborate on the latest Standards.</p> <p>In order to make sure that our ELA/ELD adoption aligns with new standards, our district will be piloting 2 of each of the following ELA/ELD Programs: 2,3,4 and 5. Discussions on the use of these programs will be extremely important as we approach the new 2016 school year.</p>

What changes in actions, services, and expenditures will be made as a result of reviewing past progress and/or changes to goals?	In order to have teachers fully implement the new math adoption, there is a need for more professional development training. We will continue to provide on-going professional development opportunities in the new adoption, use of manipulatives, consistent training on math strategies, FactsWise, Number Talks, that help support the learning. There is also a need for more manipulative materials due to increasing enrollment and new teachers. A desire for one more TOSA in the area of math would assist with more grade level specific training. The CaMSP has also given us the opportunity to provide much more training to teachers in 3rd through 8th grade. We would like to continue our collaboration with Cal Poly State University.

<p>What changes in actions, services, and expenditures will be made as a result of reviewing past progress and/or changes to goals?</p>	<p>As a result of these actions, services and expenditures, ongoing professional development in the area of English Language Development continues to be a high need in delivering English Language Development to English Language Learners. We will continue to commit to the Big 4 for English language development: Designated ELD must be put on the schedule, must be interactive, must focus on the ELD Standards and must be by proficiency level. An EL Coordinator will put together a Master EL Plan for the district. Two TOSAs are needed to help share the learning of EL strategies with teachers. There is a desire to hire individual Intervention teachers that will focus on EL Learners at the sites. In addition, there is a desire to add more ESL classes and parent education classes.</p> <p>With a Teacher Quality Grant from Cal Poly State University for the next four years, we will work closer with their Professors to provide some on site training to one our schools in the area of English Language Development, particularly Designated ELD.</p> <p>In addition, being that we currently do not have ELA/ELD materials that align with the new Standards, we will be piloting two publishers from each of the following programs in the 2016-2017 school year: Program 2,3,4 and 5. Implement District Assessments in mathematics for all grades to provide information and guidance in instruction to move students towards proficiency.

We currently do not have ELA/ELD materials that align with the newest Standards. Therefore, we will begin to pilot 2 programs of ELA/ELD materials in Program 2, 3, 4, & 5 and begin discussions around district assessments for ELA .

AYP was based on testing participation rate and student attendance. We met the participation rate in both ELA and mathematics. The target for attendance was 90%. All schools met the attendance targets in 2014-15. We met the target with 97% attendance districtwide. One of our schools, Arellanes Elementary, exited from Program Improvement status in fall 2015. Baseline testing scores for 14-15 are as follows: ELA: 23% of students met or exceeded the Smarter Balanced testing Math: 17% of students met or exceeded the Smarter Balanced testing

Each Specialist provides instruction(200 minutes every two weeks) to the fifth and sixth grade students at two sites. In the elementary schools where PE teachers were implemented to work with 5th and 6th grade students looking at preliminary scores from this year we see a growth in 5/6 areas(from 2% in the lowest area to 40% in the highest area) of the PFT from 5th grade students as compared to the previous year. In looking at cohort data for 7th grade from their previous 5th grade data we see growth in the preliminary data for this year in 4/6 areas(4.5% in the lowest area to 40.5% in the highest area). Approximately one half of the students in 7th grade received half a year of PE services during 6th grade from Certified PE Specialists. • SMBSD will continue with one SRO and hire one more SRO	LCFF Sup/Con \$196,000 Obj 5860	SMBSD is continuing to work with one SRO. Once another SRO is hired, they will begin to work with the schools in our district. The SRO is a presence on campus and helps students interact positively with law enforcement and also provides a sense of security. The metric to measure the effectiveness of this intervention is the CHKS and how kids respond to feeling safe at school. The discrepancy in allocation and money spent on this expenditure is due to the fact that the District was only able to hire one School Resource Officer this year. Next year we will continue to search for a second School Resource Officer.		LCFF Sup/Con \$94,335 Obj 5860

Section 3: Use of Supplemental and Concentration Grant funds and Proportionality

A. In the box below, identify the amount of funds in the LCAP year calculated on the basis of the number and concentration of low income, foster youth, and English learner pupils as determined pursuant to 5 CCR 15496(a)(5).

Describe how the LEA is expending these funds in the LCAP year. Include a description of, and justification for, the use of any funds in a districtwide, schoolwide, countywide, or charterwide manner as specified in 5 CCR 15496.

For school districts with below 55 percent of enrollment of unduplicated pupils in the district or below 40 percent of enrollment of unduplicated pupils at a schoolsite in the LCAP year, when using supplemental and concentration funds in a districtwide or schoolwide manner, the school district must additionally describe how the services provided are the most effective use of funds to meet the district's goals for unduplicated pupils in the state and any local priority areas. (See 5 CCR 15496(b) for guidance.)

Total amount of Supplemental and Concentration grant funds calculated:	\$37,027,335
<ul style="list-style-type: none"> <li>• Purchase materials (hands on realia, books, magazines, technology) to help support teachers in providing English Language Development to English Learners.</li> <li>• Continue to provide professional development in the area of Integrated and Designated English Language Development so that teachers may access new learning that will help their students become Redesignated and incorporate the instructional shifts necessary to address State Standards</li> <li>• Hire additional support staff to support student learning for Unduplicated Pupils, this includes 1) instructional assistants to provide small group, individualized attention and to provide guidance in the student's primary language. 2) Intervention teachers. teacher tutors and limited assignment teachers to provide small group and individualized instruction with language and learning.</li> <li>• Continue to provide a safe, secure, healthy and positive learning environment and be William's compliant. This includes additional Resource Officers, Nurses, Psychologists, Behavior Support Specialists, noon duty aides, site staffing, and smaller alternative education opportunities for students at risk and to lower the student and provider ratio to better meet the needs of our Unduplicated pupils.</li> <li>• Continue to provide Support Staff to support all English Learners, Foster Youth and Low Income Students. This will help create smaller groups and individualized attention to students most in need of academic and emotional needs. This includes Outreach Counselors, Healthy Start Advocates and Health aides</li> <li>• Begin to develop an EL Master plan, to be shared with all administrators so that we follow a process in meeting the needs of all our English Language Learners.</li> <li>• Continue to support students and site staff with the addition of a Special Education Program Specialist and Special Projects Coordinators to help support site needs and provide more small group and individualized attention to all students.</li> <li>• Continue to support and add more Curriculum subs to provide staff development, collaboration and learning opportunities so that teachers can address State Standards with all students.</li> </ul>	

B. In the box below, identify the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all pupils in the LCAP year as calculated pursuant to 5 CCR 15496(a).

Consistent with the requirements of 5 CCR 15496, demonstrate how the services provided in the LCAP year for low income pupils, foster youth, and English learners provide for increased or improved services for these pupils in proportion to the increase in funding provided for such pupils in that year as calculated pursuant to 5 CCR 15496(a)(7). An LEA shall describe how the proportionality percentage is met using a quantitative and/or qualitative description of the increased and/or improved services for unduplicated pupils as compared to the services provided to all pupils.
